

Positive School Climate

IS POSITIVE SCHOOL BEHAVIOR DIFFICULT TO TRACK AND EVALUATE FOR SCHOOL CULTURE IN YOUR SCHOOL OR DISTRICT?

Chalkable can provide you with the tools to help evaluate and improve the culture of your school.

New accountability demands placed on school personnel include:

- Improving achievement;
- Closing achievement gaps;
- Improving the graduation rate; and
- Improving the attendance rate.

Research shows that by improve school culture, educators can meet these new demands. Using Chalkable Learning Earnings platform in conjunction with our professional development services, Chalkable can provide classroom teachers with the tools and skills that will ultimately improve teaching and learning. Learning Earnings is an incentive and positive reinforcement platform that teachers can use to improve student behavior. Teachers can improve their skills through professional development which will result in more time on task and help advance the learning process.

Pillars of Success for Positive School Climate Implementations

While it is important that all schools develop consistent expectations and practices, it can be challenging for classroom teachers. Instructional staff must to set aside time to teach behavioral expectations which will improve instructional opportunities.
